## **Uniwersytet Warmińsko-Mazurski w Olsztynie**

This Diploma Supplement model was developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed at home or abroad by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

The university applies the European Credit Transfer System (ECTS). Apart from grades, for credits and examinations, evaluation of learning effects is expressed in points. One ECTS point refers to learning effects for which a student is obliged to work on average 25-30 hours. The number of hours of student's work includes classes organised by the University according to the plan of studies as well as his/her individual work. Points refer to numerical values assigned to the credits obtained from each of the completed classes and professional practise covered by the study program. The number of ECTS points does not depend on an obtained grade but on a student fulfilling the requirements on gaining the anticipated learning effects confirmed by credits obtained from classes or professional practise as well as on preparation and submission of a diploma thesis or preparation for a diploma examination. Semester completion is conditioned upon obtaining a minimum of 30 ECTS points resulting from the plan of studies and study program. Completion of an academic year is conditioned upon obtaining a minimum of 60 ECTS points. The university also applies the method of crediting certain subjects by recording a "credit" mark ("zal." - zaliczenie). The organization and the course of studies take into account any transfers and recognition of results obtained by a student in the organizational unit of the home university or in another university, including a foreign one, according to the rules of the credit transfer system. The transfer of credited classes consists in the transfer of confirmed learning effects of the student expressed in the ECTS points, called "the student's achievements". The transfer of a student's achievements is carried out in accordance with the rule of classification and recognition of ECTS points determined by separate regulations, with particular compliance with the method of evaluation of learning effects expressed in ECTS points. The evaluation of convergence of learning effects achieved by a student is a condition for the transfer of the student's achievements obtained in a university other than his home one, including foreign ones. These achievements replace the points assigned to the subjects covered by the plan of studies and the study program.

## 8 INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

### 8.1 Access to the higher education

The total duration of education until completion of a school which offers the possibility of taking the secondary school leaving examination (maturity examination) is 12 – 15 years. Having passed successfully the secondary school leaving examination (maturity examination), graduates are awarded a secondary school leaving certificate which entitles them to apply for admission to a higher education institution.

### 8.2 Higher education system

Higher education system in Poland and the basis for its operation are laid down in the Act of 27 July 2005 – Law on Higher Education (Journal of Laws (Dz. U.) No. 164, item 1365, as amended). Its provisions are applied both to public and non-public higher education institutions, in which programmes of study are offered on the same basis and upon completion of the same requirements.

Higher education institutions are divided, irrespective of their status, into academic and vocational ones.

An academic higher education institution is a school in which at least one of its organizational units is entitled to award the academic degree of *doktor*.

A vocational higher education institution is a school offering first or second-cycle programmes or long-cycle programmes, and which is not entitled to award the academic degree of *doktor*.

Study programmes are offered as first-cycle, second-cycle and long-cycle programmes and doctoral (third-cycle) programmes.

First-cycle programmes can lead to a *licencjat* degree and last six or seven semesters, or they can lead to an *inżynier* degree and last seven or eight semesters. Second-cycle programmes last three or four semesters.

Long-cycle programmes last from nine to twelve semesters.

Doctoral programmes last no longer than four years. Under a separate procedure, in compliance with the provisions of the Regulation of 14 March 2003 on the Academic Degrees and the Academic Title and on Degrees and Title in Arts (Journal of Laws (Dz. U.) No. 65, item 595, as amended), graduates are conferred the academic degree of *doktor* or *doktor w zakresie sztuki*.

Higher education programmes and doctoral programmes may be offered as full-time or part-time programmes.

### 8.3 Degrees awarded to graduates of higher education institutions

- *licencjat, licencjat pielęgniarstwa, licencjat położnictwa, inżynier, inżynier pożarnictwa, inżynier architekt* and *inżynier architekt krajobrazu* – awarded to graduates of first-cycle programmes,
- *magister* and equivalent degrees of *magister inżynier, magister inżynier architekt, magister inżynier architekt krajobrazu, magister inżynier pożarnictwa, magister pielęgniarstwa, magister położnictwa, magister sztuki* - awarded to graduates of second-cycle programmes,
- *magister* and equivalent degrees of *lekarz, lekarz dentysta, lekarz weterynarii, magister farmacji, magister sztuki* – awarded to graduates of long-cycle programmes.

### 8.4 ECTS

The number of the ECTS credits provided by the plan of studies for one semester is 30, while it is 60 ECTS credits for an academic year. To be awarded a diploma it is necessary to gather at least 180 ECTS credits upon completion of a first-cycle programme, at least 90 ECTS credits upon completion of a second-cycle programme, at least 300 ECTS credits upon completion of a long-cycle programme lasting five years and 360 ECTS credits upon completion of a long-cycle programme lasting six years.

### 8.5 Academic degrees, degrees in arts, academic title, title in arts

Academic degrees, degrees in arts and the title of *profesor* are conferred under provisions of the Regulation of 14 March 2003 on the Academic Degrees and the Academic Title and on Degrees and Title in Arts (Journal of Laws (Dz. U.) No. 65, item 595, as amended).

The academic degrees are the degrees of *doktor* and *doktor habilitowany* of a specific area of science in a given scientific discipline. The degrees awarded in arts are the degrees of *doktor* and *doktor habilitowany* of a specific area of arts in a given artistic discipline. Academic degrees and degrees in arts are conferred by organisational units of higher education institutions and the Polish Academy of Sciences, as well as research institutes in compliance with their powers.

The academic title is the title of *profesor* of a specific area of science, while the equivalent title in arts is the title of *profesor* of a specific area of arts. The title of *profesor* is conferred by the President of the Republic of Poland.
